CONNECTING CITIES FOR BETTER LIFE

CONNECTING CITIES FOR BETTER LIFE

IoTXchange encourages the creation of a network of European partners committed to the design of digitalization plans based on Internet of Things (IoT) solutions to increase the quality of life in small and medium sized EU cities.

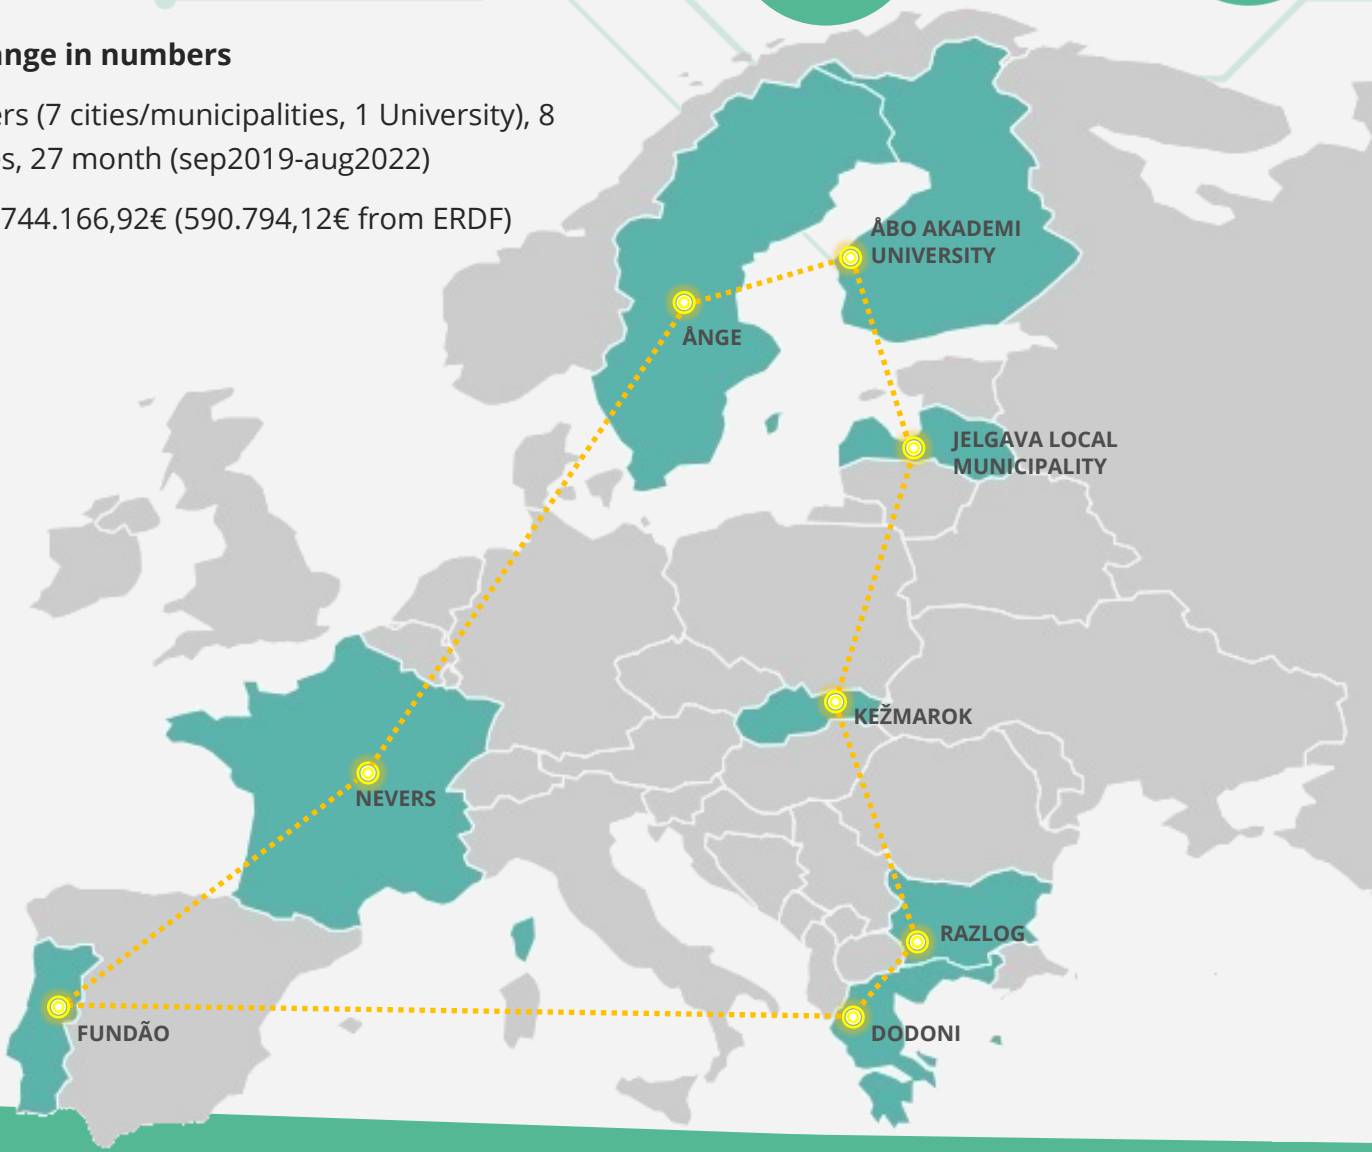

Urbact methodology based on transnational cooperation between cities and engagement of local groups offer to our network of 8 cities the conditions to each develop an Integrated Action Plan that will guide us through a new age of digital transformation.

This URBACT project is co-financed by the European Regional Development Fund.
